Work Experience

Sirjanhaarr Architects
August 2024 - Present

Private Practice

- Commercial Projects: Involved in architectural planning, layout development, façade design, and coordination with consultants to meet functional, regulatory, and design requirements.
- Residential Projects: Worked on multiple residential projects at both architectural planning and interior design levels, focusing on space optimization, user comfort, material selection, and efficient layouts.
- Institutional Project (Nursing College – Ongoing): Actively involved in academic and institutional planning, including classrooms, laboratories, administrative blocks, circulation areas, and support facilities as per prescribed norms and standards.
- Interior Design Works: Experience in interior space planning, furniture layouts, lighting design, and finish coordination for residential and commercial interiors.
- Design Development: Engaged in projects from concept design to detailed planning, ensuring functional circulation, aesthetic balance, and practical execution.
