8	2	10	0	0	2	1
9	3	10	0	1	0	1
10	3	8	1	1	1	1

Analysis :

Observation of feedback analysis committee:

The length of the course is adequately matched with the scope of the curriculum. Nonetheless, it has been noted that slight adjustments are needed to improve the curriculum and strengthen students' capacity to compete successfully on a national and worldwide scale.

------------	------------------	------------------

To create a curriculum that prepares students to compete at the national and international levels, suggestions have been gathered from industries, research institutes, parents, alumni, and students. Experts from academia and business will contribute to the curriculum's updating and revision, guaranteeing its applicability and conformity to contemporary demands.
